## PROJECTS

1. **Talon (Part time Job website connected with MongoDB)** Mar-Apr 2024

The mobile application is designed for part-time job seekers, providing a user-friendly interface for efficient job searching. It prioritizes flexible and temporary opportunities, allowing users to easily browse and filter listings based on their preferences. The platform streamlines the process by enabling seamless communication with potential employers. Overall, this app makes finding suitable part-time work a hassle-free experience.
